

MOSCOW

2019

Moscow, is a power house of a city and just a slice of Moscow's history is recorded in Tolstoy's "War & Peace". The 21st century city is expanding at a tremendous rate and there are signs of extreme wealth, however outside the city centre there is still plenty of poverty. The petrodollar has transformed the city over the last two decades, yet buildings such as the Bolshoi Theatre still reflect a neo-classical past and the metro stations are shrines to the Soviet past.

The college is located centrally, just 5 mins from the nearest metro station, and 10 minutes walk from Leningradsky Prospekt. The building is also used by foreign diplomats and international journalists. Facilities include 11 classrooms, wi-fi access, TV & DVD sets. This college has been open for over 12 years and draws on over 25 years of teaching experience, catering for 30/ 70 students studying each month. It offers a fabulous language learning environment for ALL linguistic needs, including older students and business people.

Russian language courses on offer include general language courses (across 6 to 8 language levels), combined & private tuition programmes. The college suits Gap Year and graduate students requiring longer term courses and adults looking to improve their Russian for career, academic or personal reasons.

Julia: Gap Year student

"I wanted a Gap Year with a difference. CESA explained that in Russia I had to have an open mind and accept that everything would be different to what I took as the norm. It was and I loved it! The people, the city, the excess, the poverty – amazing to experience first-hand."

Mr Wilkins: Combined Course

"Staying with a host family meant few material luxuries, which I found quite a shock, but the rewards were many. Typical food, a warm welcome and some good conversation made up for the lack of Hotel comforts and enabled me to put my new found Russian skills into practise. If you really want to learn the language and see life as Russians live it – I recommend you do the same."
