Here, you will apply the four language skills: speaking, listening, reading and writing this is where you will apply all of the grammar, new words, sentence structures, kanji and so on you learned the day before in real-world situations.

Teachers will pair you with classmates to practise conversation in fun roleplay situations. You'll work on listening exercises, read interesting articles not included in the textbooks, and even prepare a presentation for your class! Students benefit directly from this teaching style as they can use their new found skills when exploring the city and engaging with Japanese native speakers!
