

Summer Teenage Course

Tarifa 2025

Course Notes

The students are divided into FOUR language levels from CEF A1 to B2. During class time teachers arrange group outings to practice Spanish in daily situations; shopping at the market, buying tickets for an event, requesting information at the tourist office. This forms an important part of the classroom work, focusing on the oral part of the language (which is frequently the most neglected).

Students improve general Spanish language skills, practise their Spanish daily, revise grammar structures and pronunciation and address linguistic weaknesses. Tutors are all native speakers who are also professional teachers of Spanish as a foreign language.

There is daily contact between the Spanish and international student groups, who participate together in the afternoon activity programme and share dormitory accommodation - to encourage both groups to speak Spanish and English together.

The goal is to enable the students to improve their language skills whilst also learning to respect each other's social values. It will be a daily challenge for the teenagers to work together, but it will increase social skills and self-awareness as well as helping develop their Spanish language skills.

Open to: 14 to 17 year old students

The Windsurf courses will always take place on Monday, Tuesday, Thursday, and Friday (8 or 12 hours per week).

The Windsurf School Spin Out is situated directly on Playa Valdevaqueros beach, which is a very safe spot, also offering an alternative lagoon, even when wind conditions are not ideal or very strong. On days when the wind blows less, the thermal wind increases its strength in the afternoons, allowing for windsurf lessons to go ahead as planned. It is extremely rare that a lesson cannot take place! On very windy days safety measures are in place to ensure that less experienced windsurfers do not practise on the sea. In these cases, the Windsurf school has the option to switch the windsurf classes to the nearby lagoon.

On Wednesdays and Saturdays, the teens from the windsurfing participate in the same summer cultural or sport activities as the other teens. There is no windsurfing on these days or on Sundays.

2 weeks: 29 Jun & 13 July

The Wingsurf courses will always take place on Monday, Tuesday, Thursday, and Friday (12 hours per week).

If weather conditions are unsuitable on a scheduled wingsurfing day we always try to recover as many hours as possible on more suitable days. As for the wingsurf we will benefit from Los Lances beach and Punta Paloma according to wind directions, we also have more options that the wingsurf courses can be run according to our schedule. Alternatively, we offer activities such as surf or SUP, or go on an Adventure activity.

On Wednesdays and Saturdays, the teens from the wingsurf participate in the same summer cultural or sport activities as the teens. There is no wingsurfing on these days or on Sundays.

KiteSurfing Course

One, two, three or four week programme
Four afternoons each week
12 hours per week (4 students per group)
Beginner to Advanced Kitesurfers

Groups of four students, supervised by a professional instructor and two kites – one kite shared between two students. This is a tried-and-tested method and a great format for learning to kitesurf. While one student practises, the other rests, observes and assists their peer, allowing them the opportunity to digest the skills they've learnt in each session.

Partner kitesurf schools; KBC, KTS and Bull Tarifa Kite School. They all recommend group courses for beginners and first-time kitesurfers.

This format is taught from beginners to advanced levels and is offered for 12 hour weekly lessons.

More advanced kitesurfers can also find the group courses to be a satisfying learning process especially when they come with friends of the same level. They may also choose to progress at a slower pace to consolidate their knowledge.

Nevertheless, to all students with a Level 3 or above, we recommend semi-private tuition for the student's skills to benefit from the kitesurf lessons and make the lessons more beneficial.

One professional instructor will guide both students with various skills and tricks with the kite.

These semi-private courses are offered over 12 hours per week, from beginners to advanced levels.

Girls are separated from boys, then the school consider their ages, and thirdly their mother tongues and nationality. The main objective at the summer camp is constant contact with the target language. With the integration of pupils from Spain a further step is taken towards this goal. The staff aims to encourage cultural exchange by placing students from different nationalities together.

We do not separate friends of the same gender unless parents specifically request it.
