Japanese Teachers

All teachers are fluent in English and, obviously, Japanese. They are all Japanese nationals, who are professionally qualified to teach Japanese as a foreign language. They are graduates of a rigorous 420-hour Japanese teacher training course at recognized schools. The length and content of this course was originally specified by the Japanese Ministry of Education, but has now become the standard qualification for professional Japanese language schoolteachers. It is equivalent to a university minor, and the result is a very high standard of teaching.

Japanese Students

Students will all be between 14 to 17 yrs. Students come from all over the world, most are complete or false beginner level, with some at elementary / low intermediate level learners, a very few are at advanced level.

Course timetable

The class schedule will vary from week to week
With 28 lessons of contact class time over 3 wks
Lessons will be held: 09.30 to 13.10hrs on set days

Hiragana Alphabet

All ability levels are accepted, from complete beginners to very advanced (though most students will be beginner to low intermediate level).

The school ask that all students to **memorize the HIRAGANA alphabet** prior to arrival.

It should only take you a couple of days (the staff ask that you can read it, not be able to write the letters).

Group course structure

The core Japanese language course generally consists of two 50-minute grammar classes and two 50-minute conversation classes on tuition days (with a few variations). Totalling 28 lessons in the three week period.

The core focus is always communication skills. You will be expected to review new grammar skills and do related homework on weekday nights, then apply your new skills in the classroom the next day. English explanations will be given only if absolutely necessary (and comparisons between the two grammar methods will be made, which is particularly useful at lower ability levels).

Practical application of the language is encouraged to aid vocabulary retention and real-life fluency. Topical materials are used; news, TV, movies in class to illustrate a point (and engage student interest) and local shops are used (with their permission!) for planned language activity sessions.

If you have any concerns or questions, please ask the staff. They are very friendly and are happy to help!
